Plaza Centers N.V. (the “Company” or “Plaza”)

**PLAZA FILES FOR REORGANISATION PROCEEDINGS AND
PROPOSES RESTRUCTURING PLAN TO CREDITORS**

Further to the announcement on 14 November 2013, Plaza today announces that it has filed for reorganization proceedings (*surseance van betaling*) with the District Court of Amsterdam in the Netherlands (the “Court”) and submitted a restructuring plan to the Court. Pursuant to Dutch reorganization proceedings, the Court appoints an administrator to manage the affairs of the Company together with existing management; ordinary unsecured creditors become subject to a stay; and the Company has the ability to restructure its debts during the moratorium with majority consent of its creditors. Throughout the restructuring process the Company intends to continue its business activities as normal.

The reorganization proceedings and the subsequent implementation of the restructuring plan will provide Plaza with the ability to resolve its immediate liquidity situation in order to protect the continuity of the Company and preserve value for its stakeholders and creditors. This will be achieved primarily through a deferral of payment obligations to creditors of the Company for a period of three to four years, or shorter if cash flow permits. Aside from the proposed payment deferral, the terms of the proposed restructuring plan do not require bondholders to take a loss on the value of their outstanding exposures.

Notwithstanding its immediate challenges, the Company continues to have a strong balance sheet, with a positive current net asset value, and owns assets and development opportunities that offer the potential to deliver positive returns over the medium to long term. Accordingly, Plaza believes that, on a going concern basis, the Company retains significant value for its stakeholders and will be able to repay its creditors in full. By contrast, the Board is certain that a forced liquidation would cause shareholders and creditors to incur significant losses.

Plaza expects that the restructuring process will be completed within a period of six months. Upon implementation of the plan, the Company is confident it will be able to repay its creditors in full and return to generating significant value for its stakeholders, securing the viability of the Company for the future.

The Company expects that the trading of its securities might be suspended for a limited period.
