Independent Auditors' Report on Review of Interim Financial Information

To the directors of Plaza Centers N.V

We have reviewed the accompanying consolidated condensed balance sheet of Plaza Centers N.V. ("the Company") as at June 30, 2008 and the related consolidated condensed statements of income, changes in equity and cash flows for the six-month period then ended ("the interim financial information"). Management is responsible for the preparation and presentation of the consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting', as adopted by the EU. Our responsibility is to express a conclusion on the interim financial information based on our review.

We conducted our review in accordance with the International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information as at June 30, 2008, is not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU.

1. Reporting entity

Plaza Centers N.V. ("the Company") is an emerging markets developer of shopping and entertainment centres, focusing on constructing new centres and, where there is significant redevelopment potential, redeveloping existing centres, in both capital cities and important regional centres. The Company has been present in CEE since 1996. The Company has extended its area of operations beyond CEE into India and may consider other development opportunities in Asia.

In line with the Group's commercial decision to focus its business more on development and sale of shopping and entertainment centres, the Group has classified its current projects under development as trading properties rather than investment properties.

The condensed consolidated interim financial statements of the Company as at June 30, 2008 and for the six month period then ended comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates and jointly controlled entities.

The consolidated financial statements of the Group as at and for the year ended 31 December 2007 are available on the Company's' website (www.plazacenters.com) and also upon request from the Company's registered office at Keizersgracht 241, 1016EA Amsterdam, The Netherlands.

The Company has its primary listing on the London Stock Exchange and, starting from October 2007, the Company is also listed in the Warsaw Stock Exchange.

During the six month period ended June 30, 2008 the following changes and additions occurred in the Company's holdings:

a. Additional Companies acquired and activated in Romania:

The Company entered, through the selling of 49% of a newly established wholly owned subsidiary, a joint venture partnership with BAS Development ("BAS"), to develop and sell residential and office projects in Romania, through seven Romanian project companies (see also note 11c).

The Company also activated two shelf companies, North west plaza s.r.l and Mountain gate s.r.l wholly owned by the Company with the intention to purchase two plots of land in the Cities of Hunedoara and Trgu Mures respectively.

b. Activation of a Project Company in Poland:

The Company activated two shelf companies, Plaza Centers Poland (south) Sp.z.o.o, and Leszno Plaza Sp.z.o.o for the newly acquired plots in Kielce and Leszno in Poland (see also note 11a).

2. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standard (IFRS) IAS 34 *Interim Financial Reporting*, as adopted by the EU. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual consolidated financial statements of the Group for the year ended 31 December 2007.

The condensed consolidated interim financial statements were approved for issue by the board of directors on 25 August 2008.

3. Significant accounting policies

The accounting policies adopted by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements for the year ended 31 December 2007.

Financial instruments

Designation at fair value through profit or loss

The Group has designated financial assets and liabilities at fair value through profit or loss when either:

- The assets or liabilities are managed, evaluated and reported internally on a fair value basis;
- The designation eliminates or significantly reduces an accounting mismatch which would otherwise arise; or
- The asset or liability contains an embedded derivative that significantly modifies the cash flows that would otherwise be required under the contract.

The fair value of cross currency and interest rate swap is based on external valuation. Those valuations are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

4. Estimates

The preparation of interim financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates have been made in a basis consistent with the basis used in 31 December 2007 financials statements.

5. Financial risk management

There have been no significant changes in the Group's financial risk management. Objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2007.

6. Income tax expense

Income tax expense is recognised based on management's best estimate of the weighted average annual effective income tax rate expected for the full financial year. The estimated average annual tax rate used for the six months ended June 30, 2008 was 0.02%.

7. Interest-bearing loans from banks

The following interest-bearing loans from banks relating either to trading properties or to structures transactions were received during the six months ended June 30, 2008:

8. Related parties

The Control Centers Group of companies, held by Mr. Mordechay Zisser, the main shareholder of Elbit Imaging Ltd. ("EI") who is the indirect controlling shareholder of the Company, is providing project management services to various projects developed by the Company and has charged EUR 3.4 million for services provided in the six months period ended June 30, 2008.

Jet Link, a Company held by Mr. Mordechay Zisser, which provides aviation services for the Company has charged a total of EUR 0.5 million for services provided in the six months period ended June 30, 2008.

The Company estimates the liability arising from an agreement signed with the Executive Vice Chairman of EI, in an amount of EUR 442 thousands. This provision is in connection with the Vice Chairman of EI in India. A provision has been record in other liabilities — related parties and was included as administrative expenses in the consolidated income statement.

EI has charged EUR 200 thousands for accounting and legal services provided to the Company in the first six months of 2008.

9. Earnings per share

Earnings per share attributable to equity holders of the Company arise from continuing operations as follows:

	For the six month period ended June 30, 2008
Earnings per share for profit from continuing operations attributable to the equity holders of the Company (expressed in EUR per share)	
Basic:	0.15
Diluted:	0.15

10. Standards, interpretations and amendments to published standards not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective for the six months period ended 30 June 2008, and have not been applied in preparing these consolidated financial statements:

Revised IFRS 2 Share-based Payment (effective from 1 January 2009)

The revised Standard will clarifies the definition of vesting conditions and non-vesting conditions. Based on the revised Standards failure to meet non-vesting conditions will generally result in treatment as a cancellation.

The Group has not yet completed its analysis of the impact of the revised Standard.

10. Standards, interpretations and amendments to published standards not yet effective (cont.)

 Revised IFRS 3 Business Combinations (effective for annual periods beginning on or after 1 July 2009)

The scope of the revised Standard has been amended and the definition of a business has been expanded. The revised Standard also includes a number of other potentially significant changes including:

- All items of consideration transferred by the acquirer are recognized and measured at fair value as of the acquisition date, including contingent consideration.
- Transaction costs are not included in the acquisition accounting.
- The acquirer can elect to measure any non-controlling interest at fair value at the acquisition date (full goodwill), or at its proportionate interest in the fair value of the identifiable assets and liabilities of the acquiree.
- Acquisitions of additional non-controlling equity interests after the business combination must be accounted for as equity transactions.

As the revised Standard should not be applied to business combinations prior to the date of adoption, the revised Standard is expected to have not impact on the financial statements with respect to business combinations that occur before the date of adoption of the revised Standard.

The Group has not yet completed its analysis of the expected impact of the revised Standard on its method of accounting for business combinations following adoption of the revised Standard.

- IFRS 8 Operating Segments introduces the "management approach" to segment reporting. IFRS 8, which becomes mandatory for the Group's 2009 financial statements, will require the disclosure of segment information based on the internal reports regularly reviewed by the Group's Chief Operating Decision Maker in order to assess each segment's performance and to allocate resources to them. Currently the Group doesn't presents segment information in respect of its business and geographical segments. Early adoption is permitted and comparative figures are required to be restated.
- Revised IAS 1 Presentation of Financial Statements (effective from 1 January 2009)

 The revised Standard requires information in financial statements to be aggregated on the basis of shared characteristics and introduces a statement of comprehensive income. Items of income and expense and components of other comprehensive income may be presented either in a single statement of comprehensive income with subtotals, or in two separate statements (a separate income statement followed by a statement of comprehensive income). The Group is currently evaluating whether to present a single statement of comprehensive income, or two separate statements.
- Revised IAS 23 requires the capitalization of borrowing costs that relate to assets that take a substantial period of time to get ready for use or sale. The revised IAS 23 will become mandatory for the Group's 2009 financial statements. In accordance with the transitional provisions the Group will apply the revised IAS 23 to qualifying assets for which capitalisation of borrowing costs commences on or after the effective date.

10. Standards, interpretations and amendments to published standards not yet effective (cont.)

• Amendments to IAS 27, Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1 January 2009).

The amendments remove the definition of "cost method" currently set out in IAS 27, and instead require all dividends from a subsidiary, jointly controlled entity or associate to be recognised as income in the separate financial statements of the investor when the right to receive the dividend is established. In addition, the amendments provide guidance when the receipt of dividend income is deemed to be an indicator of impairment.

Amendments to IAS 27 are not expected to have any impact on the consolidated financial statements, as these are the consolidated financial statements.

• Revised IAS 27 Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1 July 2009).

In the revised Standard the term minority interest has been replaced by non-controlling interest, and is defined as "the equity in a subsidiary not attributable, directly or indirectly, to a parent". The revised Standard also amends the accounting for non-controlling interest, the loss of control of a subsidiary, and the allocation of profit or loss and other comprehensive income between the controlling and non-controlling interest.

The Group has not yet completed its analysis of the impact of the revised Standard.

- IFRIC 13 Customer Loyalty Programmes addresses the accounting by entities that operate, or otherwise participate in, customer loyalty programmes for their customers. It relates to customer loyalty programmes under which the customer can redeem credits for awards such as free or discounted goods or services. IFRIC 13, which becomes mandatory for the Group's 2009 financial statements, is not expected to have any impact on the consolidated financial statements.
- IFRIC 15— clarifies that revenue arising from agreements for the construction of real estate is recognised by reference to the stage of completion of the contract activity in the following cases:
 - 1. The agreement meets the definition of a construction contract in accordance with IAS 11.3;
 - 2. The agreement is only for the rendering of services in accordance with IAS 18 (e.g., the entity is not required to supply construction materials); and
 - 3. The agreement is for the sale of goods but the revenue recognition criteria of IAS 18.14 are met continuously as construction progresses.

In all other cases, revenue is recognized when all of the revenue recognition criteria of IAS 18.14 are satisfied (e.g., upon completion of construction or upon delivery).

The Group has not yet completed its analysis of the impact of the new Interpretation.

10. Standards, interpretations and amendments to published standards not yet effective (cont.)

• IFRIC 16 - Hedges of a Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1 October 2008), explains the type of exposure that may be hedged, where in the group the hedged item may be held, whether the method of consolidation affects hedge effectiveness, the form the hedged instrument may take and which amounts are reclassified from equity to profit or loss on disposal of the foreign operation.

IFRIC 16 is not expected to have any impact on the consolidated financial statements as the Group has not designated any hedges of a net investment in a foreign operation.

• IAS 40, Investment Property (effective for annual periods beginning on or after 1 January 2009).

IAS 40 is amended to include property under construction or development for future use as investment property in its definition of "investment property". This results in such property being within the scope of IAS 40; previously it was within the scope of IAS 16.

The Group has not yet completed its analysis of the impact of the new Interpretation.
